DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 8, lines 9-10, the recitation “a cap member having a second female threaded portion being configured to engage said first female threaded portion” appears inaccurate and/or misdescriptive. As shown in Figure 15, it appears that the second female threaded portion 90g of the cap member 90f is engaged with the male threaded member 80c of the first shaft portion 1f and *not* the first female threaded portion 90d.

Allowable Subject Matter

Claims 1-7 are allowed the prior art of record. The prior art of record does not teach or fairly suggest the entire combination of elements set forth including a cap member having a second male threaded portion engaging the first female threaded portion of the nut member.

Art Unit: 3654

Claims 8-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
